PROFESSIONAL SUMMARY

3D Artist with 6+ years of experience in VR, gaming, and cinematic projects. Specialized in high-quality modeling and texturing using ZBrush, Substance Painter, Blender, and Unreal Engine. Strong team player focused on visual quality and continuous improvement.

WORK EXPERIENCE

TEAM LEADER / 3D GENERALIST

Victoria VR, Prague - On-Site 02/2022 - Current

Oversaw character and prop production pipeline, team performance, and asset quality for real-time VR projects in Unreal Engine.

RESPONSIBILITIES

- Led and mentored 3D artists; participated in hiring. Supervised mocap / face capture, rigging, and skinning.
- Produced characters and props from concept to game-ready assets.
- Optimized assets for VR (topology, UVs, LODs, materials).
- Collaborated with other departments and pre-production.

3D ARTIST / TECHNICAL GENERALIST

WeSmart Studio, Prague - Remote 06/2025 - 10/2025

Streamers Clash (Riot Games Partnership)

Executed 3D asset creation and technical implementation for the Summoner's Rift recreation in Unreal Engine.

RESPONSIBILITIES

- Managed full Unreal Engine pipeline, including modeling, animation, and VFX.
- Developed complex materials and handled audio integration.
- Overseer of workflow and task management via Azure DevOps and Git for version control.
- Produced and implemented technical assets from creation to engine integration.

FREELANCE

FAB, CGTrade, Unity - Remote 07/2019 - 12/2022

Web & Game Development Role: 3D Artist / Technical Generalist

RESPONSIBILITIES

- Developed assets for browser projects, focusing on GLB and GLTF formats.
- Produced game-ready models and implemented them into various game engines.
- Modeled 3D objects based on customer sketches and technical requirements.
