PROFESSIONAL SUMMARY

Creative and detail-oriented 3D Artist with over 5 years of experience in producing high-quality models, textures, and animations for virtual reality, gaming, and cinematic projects. Skilled in utilizing industry-leading software such as Zbrush, Substance Painter, Blender, and Unreal Engine to bring complex concepts to life. Proven track record of delivering visually compelling content that enhances user experience and meets client objectives. Strong team collaborator with a passion for continuous learning and pushing the boundaries of digital artistry.

WORK EXPERIENCE

TEAM LEADER CHARACTER DEPARTMENT

Victoria VR - Prague, Czech Republic 02/2023 - Current

- Led the character development team, enhancing productivity through optimized workflows and regular performance reviews.
- Developed team members' skills through targeted coaching sessions, resulting in improved individual performance.
- Coordinated resources effectively to meet project deadlines and achieve desired results.
- Streamlined workflows for increased efficiency, reducing turnaround times for critical tasks.
- Collaborated with other department leaders to establish shared goals and ensure alignment across teams.
- Interviewing and recruiting new employees.
- Supervised motion capture and face capture processes, including animation cleanup and retargeting.
- Directed the skinning and rigging of humanoid characters for integration into game environments.

3D GENERALIST

Victoria VR - Prague, Czech Republic 12/2022- 02/2023

- Enhanced project quality by optimizing model topology and UV layouts, leading to more efficient rendering.
- Contributed to pre-production planning, including storyboarding, environment design, and asset creation.
- Developed game-ready modular assets for VR projects, focusing on optimization and performance.
- Created high and low poly models, implementing advanced texturing techniques for various types of materials.
- Optimized game assets by managing LODs, collisions, materials, and object merging.

FREELANCE

Unreal Marketplace, Turbosquid, CGTrade, Unity - Remote 07/2019 - 12/2022

- Enhanced client satisfaction by delivering high-quality work within deadlines.
- Optimized project efficiency by creating and implementing effective task management strategies.
- Strengthened client relationships with consistent communication and timely project updates.
- Work on project for browser based on A-frame (creation texture and 3d model glb and gltf formats).
- Creation game ready models and implement them to game engines.
- Modeling of objects according to the customer's sketches.
